Education

Institute of Engineering and Management

2025 - Present

M.Tech in Computer Science and Engineering (AI & Data Science)

Narula Institute of Technology

2021 - 2025

B.Tech in Computer Science and Engineering (AIML)

Relevant Coursework

- Data Structures & Algorithms
- Software Engineering
- Operating Systems
- Database Management
- Artificial Intelligence
- Neural Networks
- NLP
- Computer Vision
- Probability & Statistics
- Object-Oriented Programming

Technical Skills

Languages: Python, C++, Scala, SQL, JavaScript

Libraries / Frameworks: Django, FastAPI, TensorFlow, Pandas, NumPy, React, Node.js, MongoDB

Developer Tools: Git, Docker, CI/CD Pipelines, MLOps, Cloud Platforms (AWS)

Experience

Data Analytics, Deloitte

2025

Virtual Internship From Deloitte

Projects

Advanced E-commerce Web Application | Django, Python, PostgreSQL, AWS

[Link](#)

- Developed a full-featured e-commerce platform using Django with advanced product catalogue functionality supporting variants such as size, colour, and material.
- Implemented dynamic views to allow seamless product customization and selection by users.
- Integrated secure user authentication, order management, and payment processing systems.
- Deployed the application to AWS, ensuring high availability and scalability for real-world access.
- Included key features like shopping cart, search/filter, and responsive UI for seamless user experience.

Cyberbully Detection Using Machine Learning | Python, TensorFlow

[Link](#)

- Explored BART and traditional ML models (SVM, Random Forest, Neural Networks) for cyberbullying detection.
- Utilized NLP for text preprocessing, sentiment analysis, and feature extraction.
- Optimized BERT model achieving **94.1% accuracy**, with enhanced speed and reduced prediction time.

Celebrity Face Matcher | Python, LLM, Deep Learning

[Link](#)

- Built a facial recognition system using DeepFace and cosine similarity to identify Bollywood celebrity look-alikes from user-uploaded images.
- Created an interactive Streamlit app for real-time face capture, embedding generation, and match visualization.

Certificates

- **Machine Learning with Python (with Honors)** – IBM (2024) [Link](#)
- **Full Stack Development** – ARDENT (2024) [Link](#)
- **Responsive Website Development and Design Capstone** – Goldsmiths, University of London (2023) [Link](#)
- **Object-Oriented Data Structures in C++** – University of Illinois at Urbana-Champaign (2022) [Link](#)
- **Writing Skills for Engineering Leaders** – Rice University (2021) [Link](#)
